Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed claim 1 and the reference to DeMarcken. Examiner indicated that the reference to DeMarcken appears to disclose all the limitations of at least the current language of claim 1 with respect to either providing the user with real-time airline availability information or cached information (See at least Figure 6). Applicant proposed amending the claim in an RCE to indicate that the type/source of information provided to the user depends upon additional parameters such as requestor priority or other parameters. Examiner indicated that this would be considered upon official filing of the amendment.
